TOAST

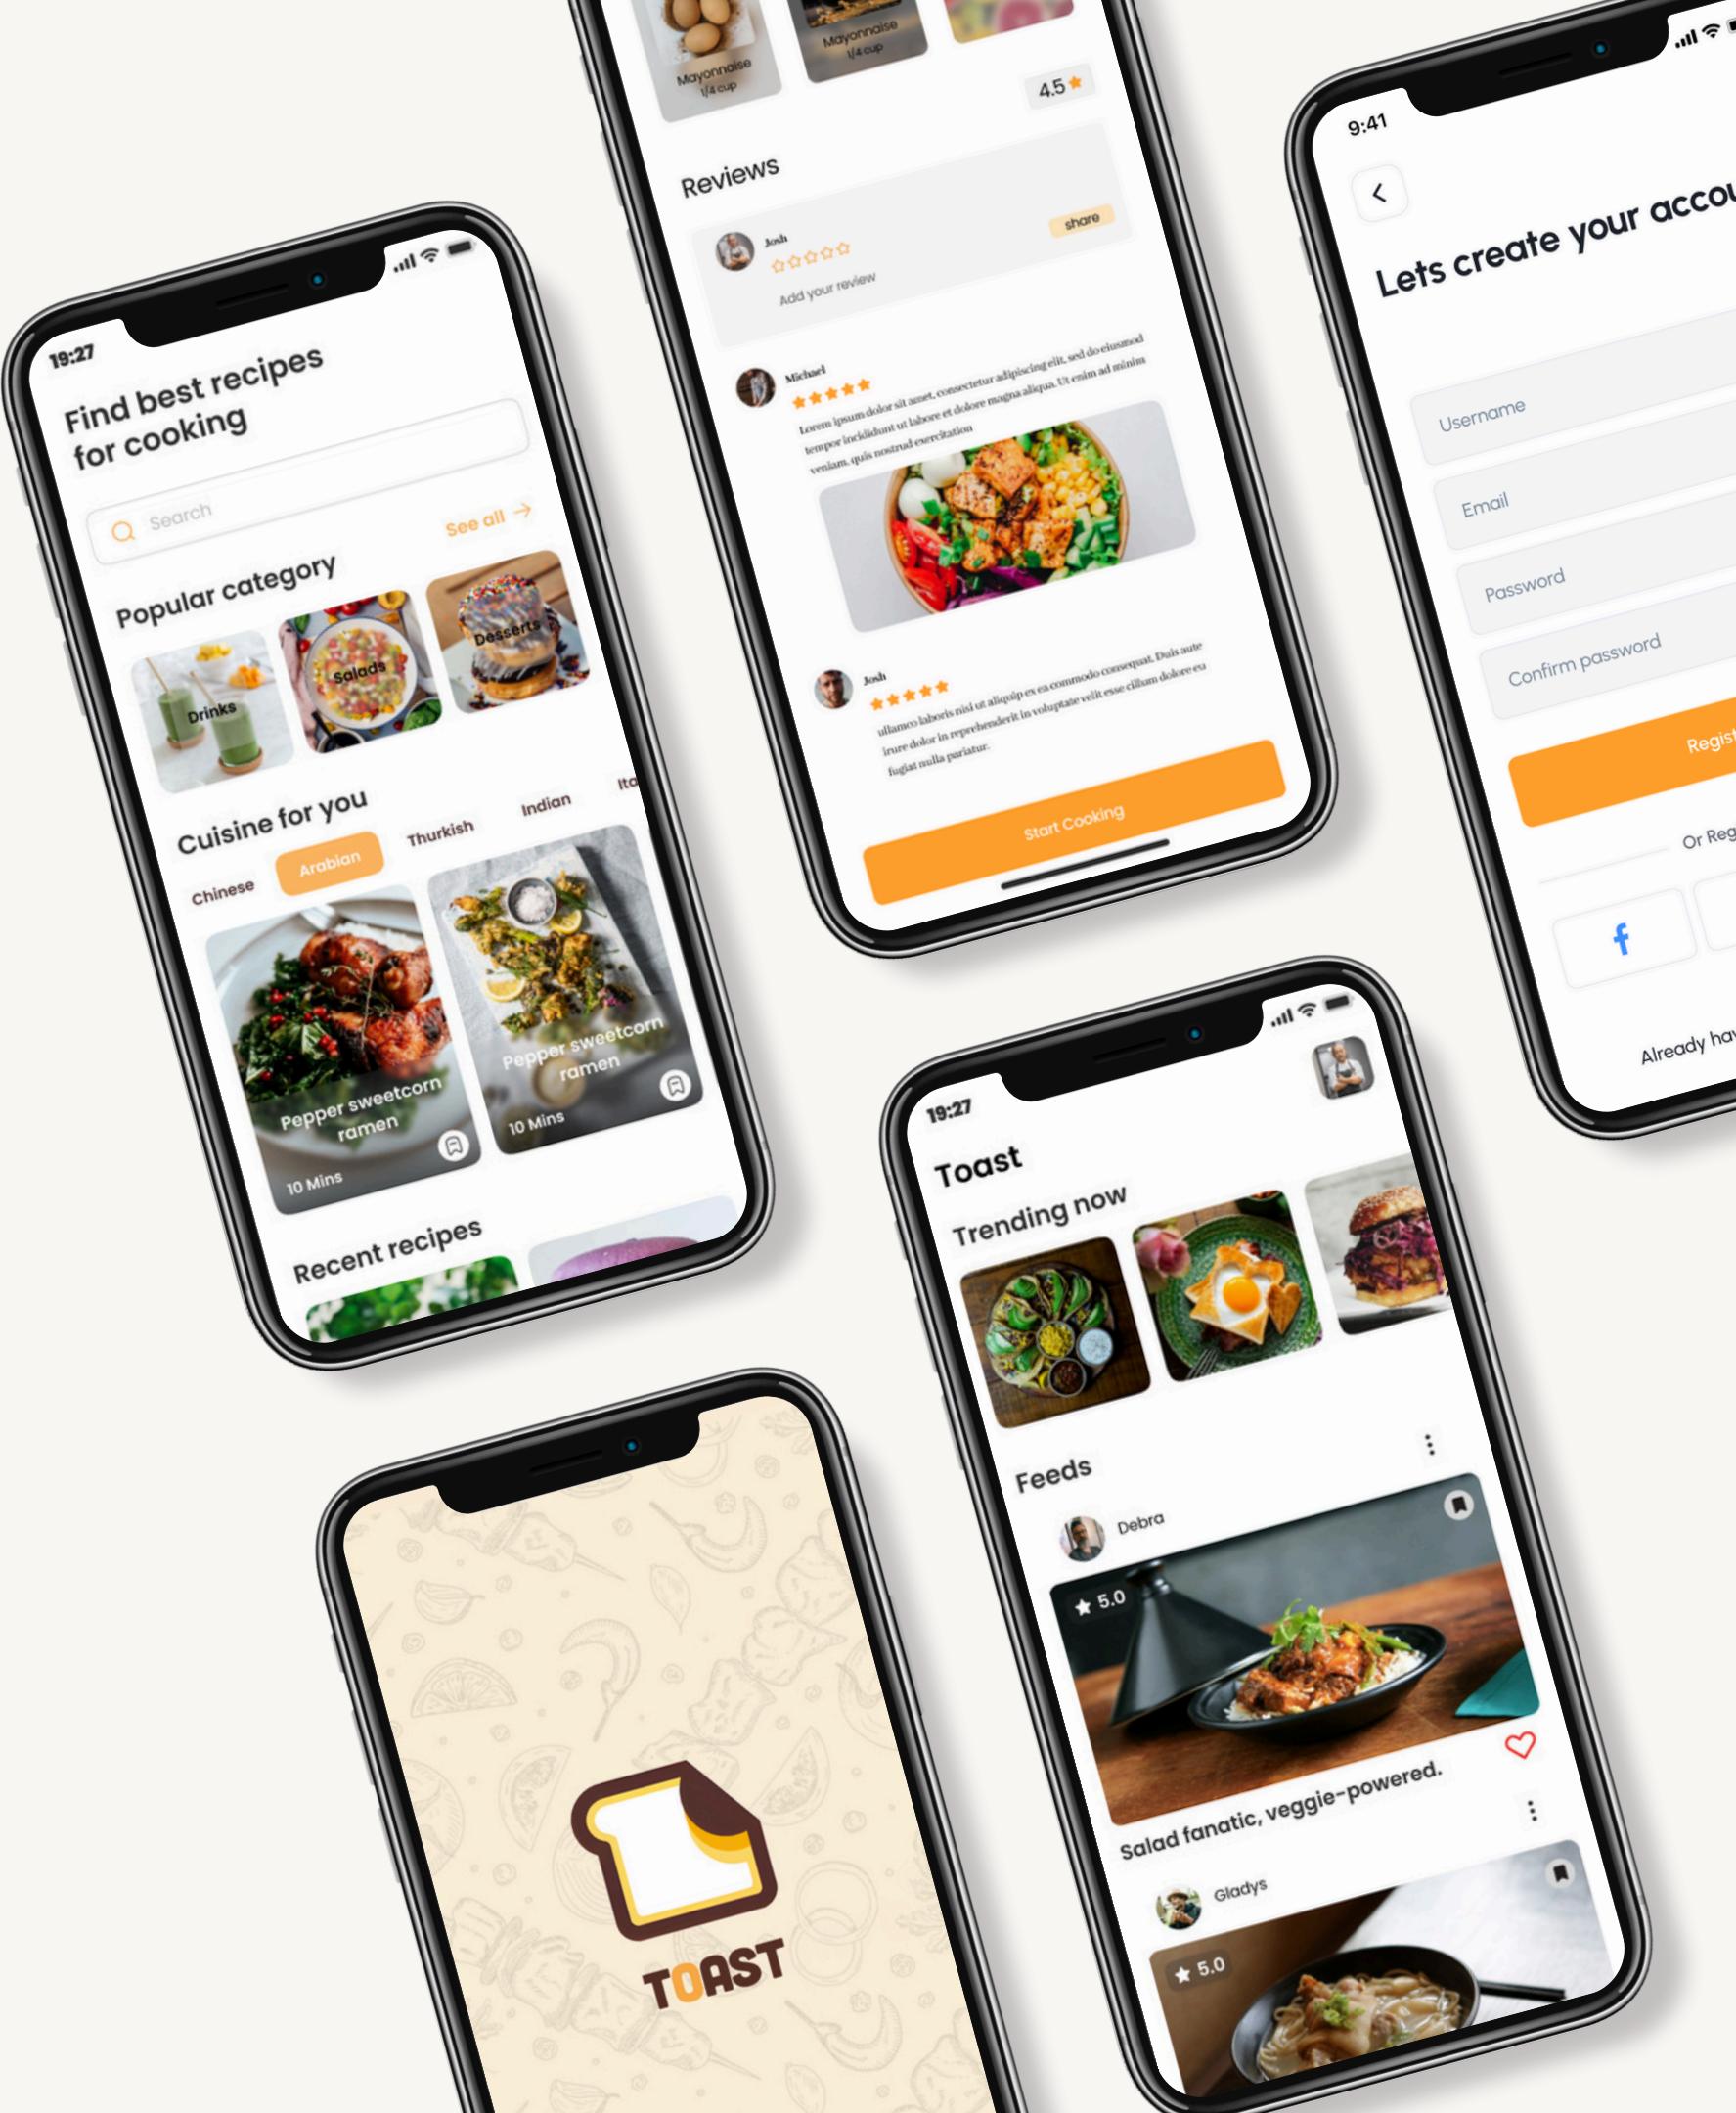

ELEVATE YOUR FOOD JOURNEY

Introducing Toast—a vibrant food-based social media app designed to elevate your dining experience and connect food enthusiasts worldwide.

Toast is more than just a platform; it's a community where you can share your culinary adventures, discover new dining spots, and engage with fellow food lovers through interactive features. With Toast, you can post and browse delicious food photos, join lively discussions, and explore personalised recommendations based on your tastes and preferences.

Our goal is to enhance your social experience around food, making it both enjoyable and engaging. Dive into the world of culinary delights with Toast today and download the app to start sharing and discovering food like never before!

The best way to find your better half

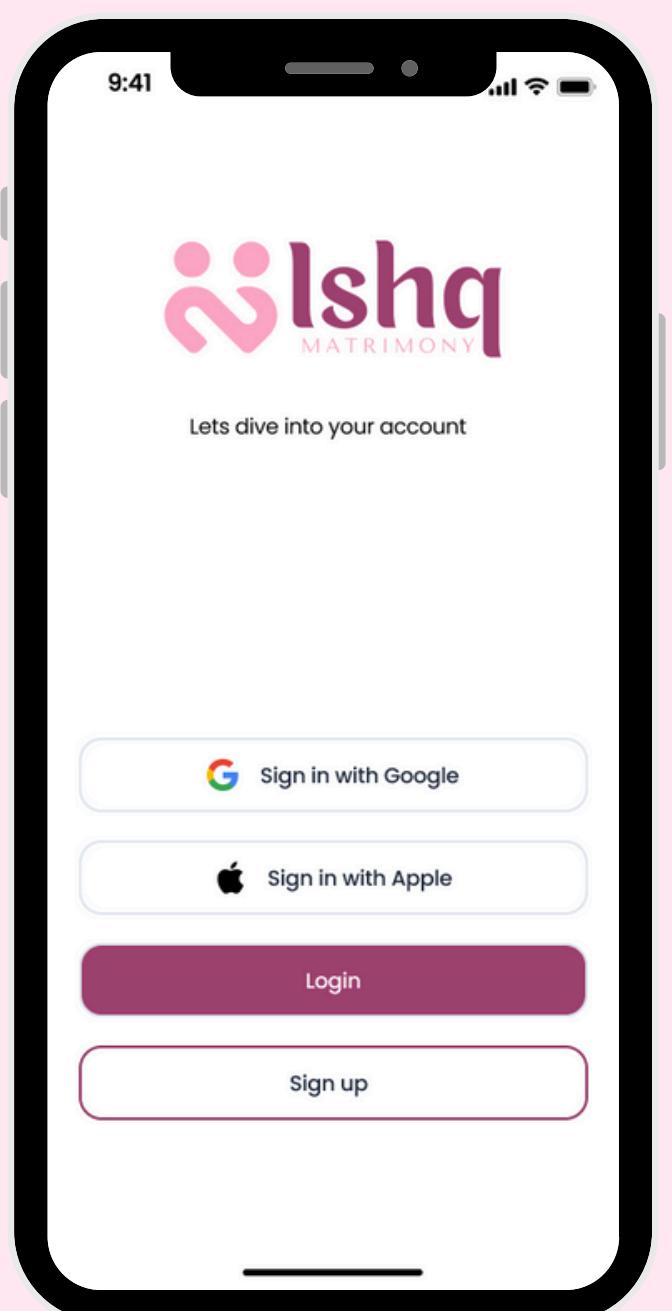

Ishq is a cutting-edge matrimonial app designed to transform the way you find love. We prioritize user experience by addressing common pain points in traditional applications. Our custom algorithm matches users based on diverse preferences, while robust privacy features, such as profile picture locking and real-user verification, ensure a secure and authentic experience. Explore Ishq and discover a more personalized approach to finding your ideal partner.

Exception Helper

Tame Your Errors with Ease – The Ultimate Exception Wrangler!

I developed an open-source Flutter package to enhance application stability by effectively managing exceptions and crashes. Recognizing the impact of application errors on user experience, I created this package to streamline error handling and ensure a smoother user journey. Available on pub.dev, this package is designed to help fellow developers maintain robust and reliable applications by simplifying exception management.
